Leadership in Transition: A Renewed Call to Public Service

This year the County has seen many changes including welcoming two new Supervisors, changes in the County leadership structure and the evolution of County priorities. These changes can challenge our everyday norms and realign our priorities but above all they can help reinvigorate our commitment to public service. This year's LACMC Educational Conference will focus on "*Leadership in Transition: A Renewed Call to Public Service*" and aims to provide you, our county leaders, with perspective and insight into these changes and reenergize our commitment to the noble profession. We will hear directly from those championing the changes, from our elected and appointed leadership on how they manage and lead through these changes, and speakers providing their unique perspective and motivation for the work they do.

Featured speakers include:

Supervisor Hilda L. Solis
